# What Is it?

RUPlanner is a simple, easy, elegant tool to help students plan out their academic career

Combines the intuitiveness of Course Planner with the data and information of Degree nav.

- Shows required courses and pre reqs
- Indicates what classes still need to be taken
- Shows total credits and course flexibility

Will only work for Engineering students (for

# Deliverables

Deliverable 1	Deliverable 2	Deliverable 3
Functioning Databases	Working demo for ECE students	Working demo for ALL engineering majors
Basic website UI	Polished website UI	Finished UI
Login/Register	Graduation/course information dynamically update	Share Planner with others
	Save/Edit Planner	Anything else

# Responsibilities
